Cloud Infrastructure Services | Innovation areas

Service | Automated managed cloud environment

Brief Description of Service Product

- Fully managed private cloud environment for training, demonstration, development or testing purposes

Technologies

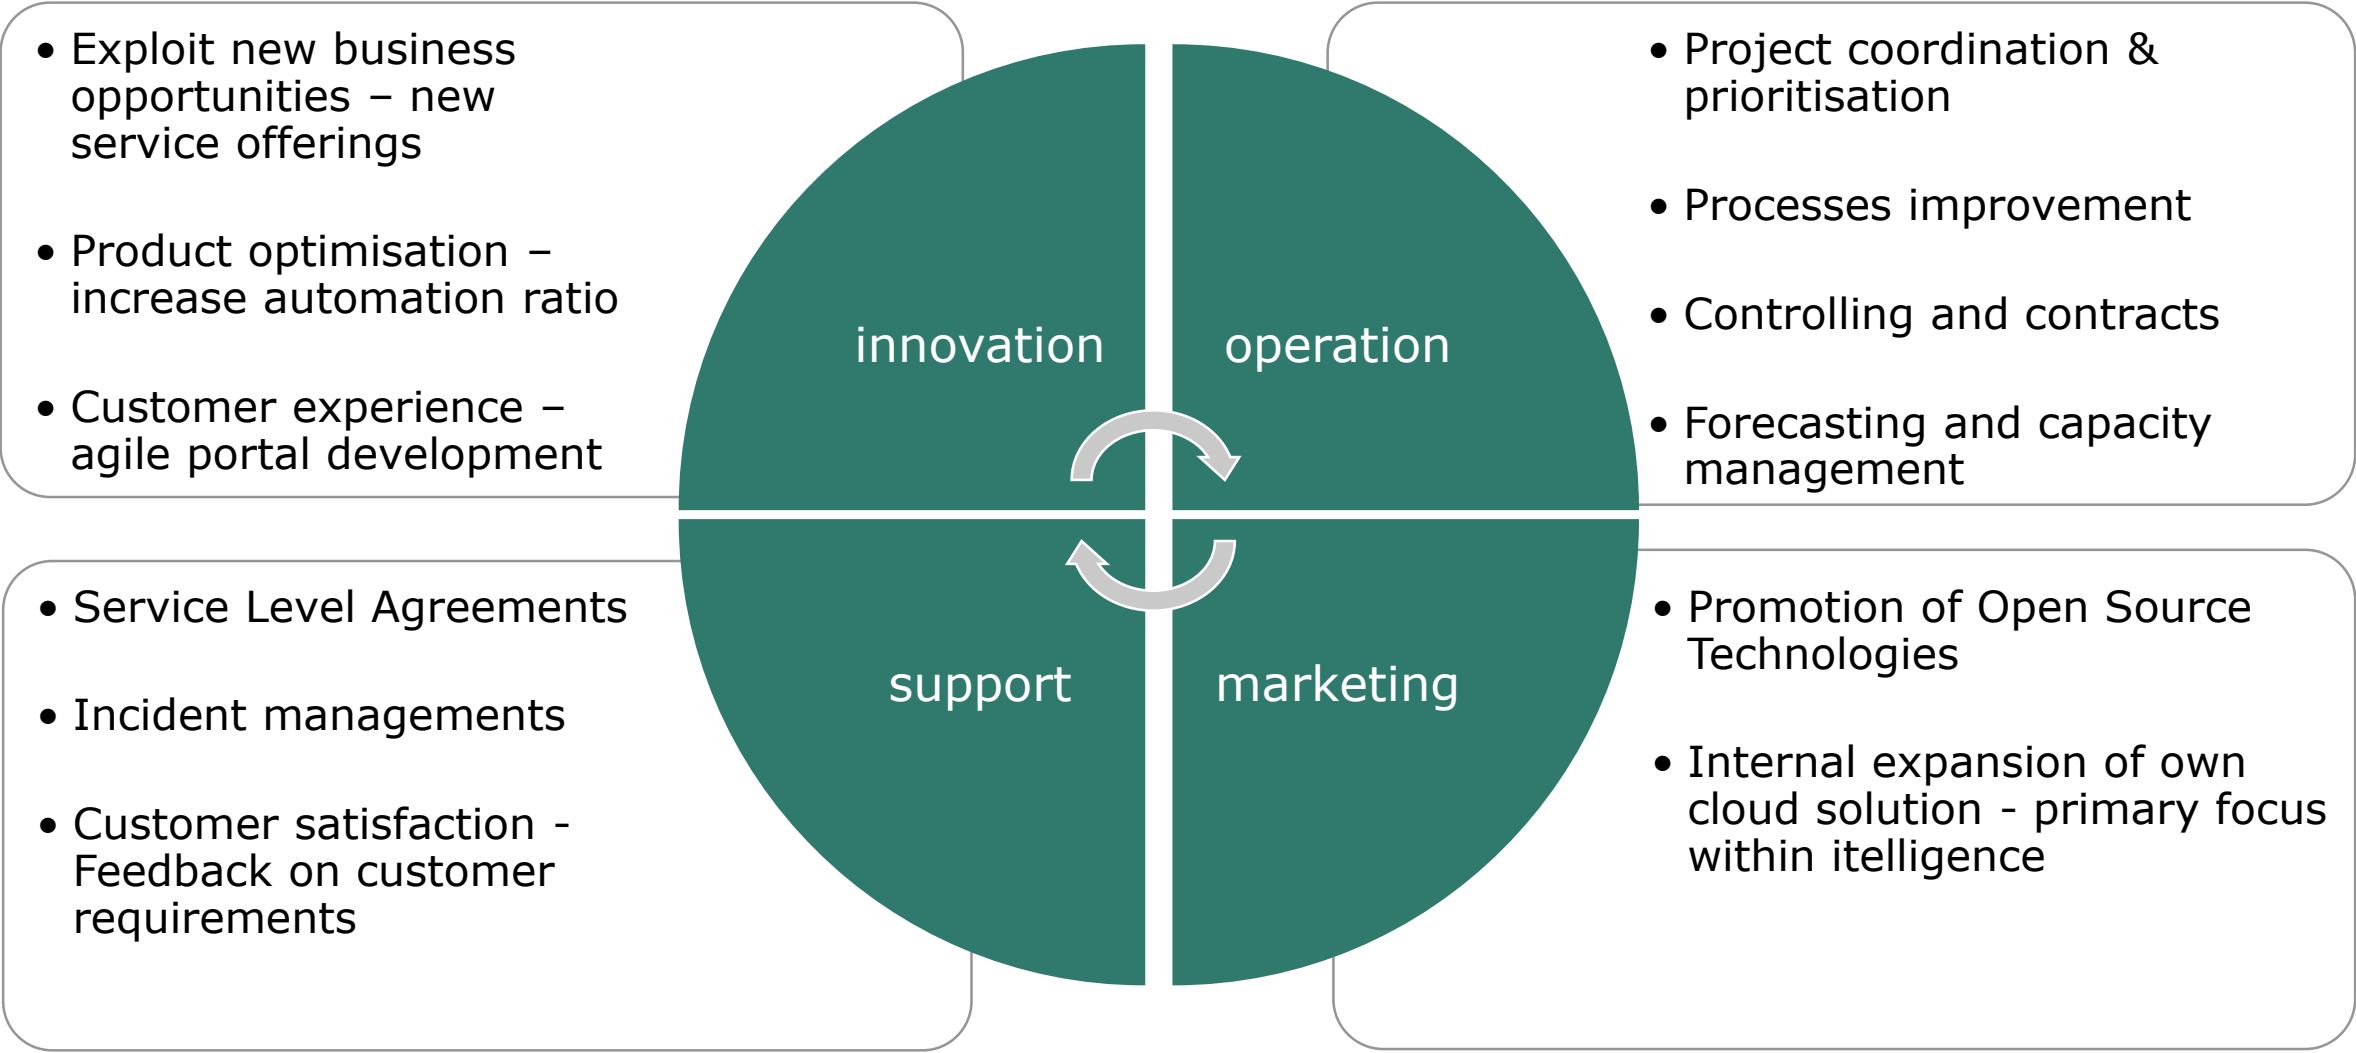

- Cloud Management Platform for compute, storage, network: Cloudstack 4.11.2
- Automation framework: Ansible
- Authentication & authorisation: OpenLDAP
- Monitoring solution: Check_MK
- Hypervisor: KVM
- Cloud storage: Ceph

Service Management

Objectives & Expectations

Service Manager | objectives

Service Manager | customer satisfaction

- 
 - Transparency
 - Cost
 - Performance
 - Capacity

- 
 - Data Security
 - Availability/Stability
 - Data protection

- 
 - User Experience
 - Self service
 - User friendly
 - Scalability
 - SLAs

CloudStack – cloud management platform

Our best fit

Cloudstack | #cloudstackworks for us

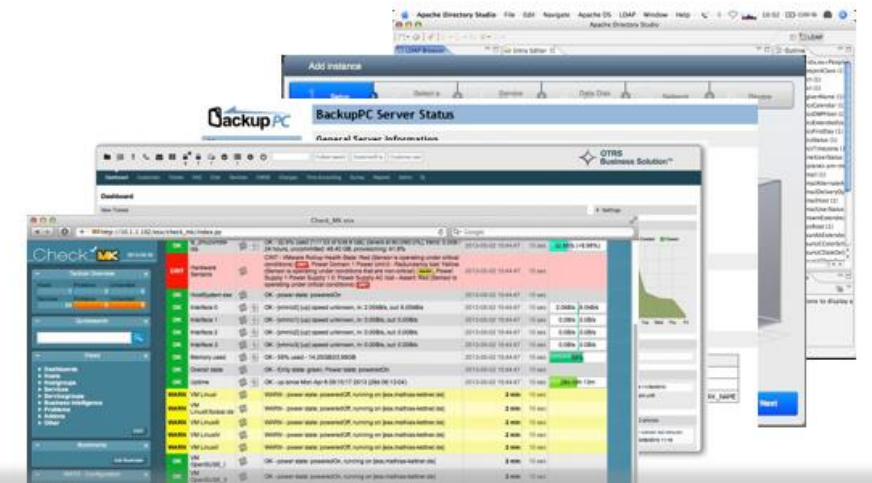

- Works for small operational teams
- Easy to upgrade - all in one software
- Great active community
- Usage reports
- Multi-tenancy
- Works well with other chosen open source technologies (Ceph, Ansible)

Additional Enhancements

Our approach

customer experience | Portal development

- Consolidate the varying systems with their individual design and functions
- Facilitate process automation
- Immediate availability and scalability of cloud environment
- User dashboard for autonomous infrastructure management
- Portal functionalities:
 - User management
 - Server management
 - Storage management
 - Firewall management
 - SAP Application installation

 A screenshot of the itelligence BIT.CLOUD portal dashboard. The interface is clean and modern, with a left-hand navigation menu and a main content area.

System Landscape

- Quick Links
 - List Virtual Machines
 - List Volumes
 - List Users
 - Create Virtual Machine
 - Create Volume
 - Create User

Dashboard

- VIRTUAL MACHINES:** 5 / 59 (54 Remaining - 3 Running - 2 Not Running)
- CPU:** 13 / 98 (85 Remaining)
- RAM:** 52.00 GB / 135.66 GB (83.66 GB Remaining)
- IP ADDRESSES:** 7 / 20 (13 Remaining)
- VOLUMES:** 16 / 60 (44 Remaining)
- STORAGE SPACE:** 685.00 GB / 1.95 TB (1.28 TB Remaining)

Virtual Machines:

Name	Operating System	Status
atacama	Linux	Running
gobi	Linux	Stopped
horstname1	Linux	Running
kalahari	Linux	Running
orch-pilot-test	Linux	Running

Service Manager | additional enhancements

- Customer experience
 - Self-service approach
 - Scalability/Flexibility

- Diversity of CS application : bugs visibility / priority
 - Find the error
 - Risk for SLAs & billing
 - Work around

- ✓ Issue request placed and issue resolved in next merge request
- ✓ Follow Shape Blue upgrade path

Service Manager | additional enhancements

- Customer experience
 - Self-service approach
 - Scalability/Flexibility
- Transparency
 - Invoicing

Transparency | invoicing through billing tool

- Functions of Report-Module:
 - Selection of different report types and export to xls, csv (PDF planned)
 - Filtering: start, end, domain, project, vm, costcenter

Service Manager | additional enhancements

- Customer experience
 - Complex UI, therefore difficult to fulfill self-service approach
 - Scalability/Flexibility
- Transparency
 - Exact invoicing
 - Quota

Transparency | Quota view in portal dashboard

The screenshot shows the 'itelligence' portal dashboard. At the top, there is a navigation bar with 'Cloud Services', 'Tools', 'Management', 'Support', 'Landscape (alm01)', and 'Domain (itelligence)'. A left sidebar contains 'Quick Links' with options for Virtual Machines, Volumes, Users, Application, Virtual Machine, Volume, and User. The main dashboard area is titled 'Dashboard' and features six resource quota cards: Virtual Machines (3/20), CPU (16/40), RAM (128.00 GB / 158.00 GB), IP ADDRESSES (4/219), VOLUMES (18/22), and STORAGE SPACE (2.70 TB / 2.92 TB). Below these are two sections: 'Virtual Machines:' with a table of three VMs and 'News:' with a 'Release 1.15' announcement.

Dashboard

VIRTUAL MACHINES
3 / 20
17 Remaining - 2 Running - 1 Not Running

CPU
16 / 40
24 Remaining

RAM
128.00 GB / 158.00 GB
30.00 GB Remaining

IP ADDRESSES
4 / 219
215 Remaining

VOLUMES
18 / 22
4 Remaining

STORAGE SPACE
2.70 TB / 2.92 TB
225.00 GB Remaining

Virtual Machines:

Name	Operating System	Status
alm01-demo	Linux	Running
alm01-enm	Windows	Stopped
alm01-idm	Windows	Running

News:

Release 1.15

Release notes

New features:

- SSH key to login to a virtual machine

The user has the possibility to define his own SSH key in the user settings. Therefore the user will be able to log in to the virtual machines he has access to via SSH key now.
