

StorPool
DISTRIBUTED STORAGE

Primary Storage Platform for
Large-Scale Clouds

**Enhance the Reliability, Agility, and
Speed of your IT Infrastructure**

Build an Automated Cloud with Zero Storage Bottlenecks

StorPool Storage enables you to deploy and grow large-scale cloud infrastructure that is cost-efficient on a TCO basis and rivals the hyperscale cloud services providers in terms of reliability, agility, and speed. Bring your data home using the technologies you need, and pay as you grow - with no fixed term commitments.

World-Class Managed Services To Meet Your Needs

When you work with StorPool's team of storage experts, your users will experience fast and reliable services. We expertly maintain the StorPool storage platform, so your tech team finally has time for the critical projects that aim to grow your business.

Design

We help you select the ideal architecture for your cloud at the physical, network, and logical levels, using only commodity hardware.

Fine-tune

We analyze and tune your StorPool Storage systems so that they run optimally and reliably for your end-customer workloads.

Maintain

We ensure that your storage system always runs optimally by installing non-disruptive updates and adding servers when needed.

Deploy

We install StorPool Storage in your servers and connect your storage system to one or more Cloud Management Platforms.

Monitor

We monitor thousands of metrics per second to proactively deal with potential issues before they impact end-customer workloads.

Next-Generation Primary Storage Software for Modern IT

StorPool Storage is a primary storage platform designed for large-scale cloud infrastructure. It is provided as software that converts sets of commodity servers into high-performance, linearly scalable storage systems. The platform is ideal for mission-critical workloads that demand extreme reliability and rapid response times - OLTP databases, web servers, VDI, and more. StorPool's built-in agility enables delivering cloud services that match each end-customer's needs and budget, and our world-class managed services allows your team to get to the real business at-hand.

With StorPool, you:

- 1. Accelerate** mission-critical applications.
- 2. Seamlessly manage** from your Cloud Management Platform.
- 3. Enjoy peace of mind** knowing your data is always available and accessible.
- 4. Scale cloud capacity and performance** with our parallel multi-node, shared-nothing architecture.
- 5. Maintain storage system performance** with non-disruptive hardware lifecycle management.

Get in touch with us to explore why our partners chose to build next-generation clouds powered by StorPool Storage and how we help them streamline their IT operations costs and grow their business. We ensure you get the best of both worlds – cutting-edge cloud infrastructure with the reliability of traditional enterprise solutions.

Pricing Designed for You

When you deliver excellent services at great prices, everyone wins - you attract more happy customers, your revenue grows in a sustained manner, and the amount of data in your storage system increases. StorPool Storage only bills you for the data saved in your storage system, excluding redundancy and system overhead, converting storage from a fixed overhead to a variable cost that is a portion of the actual revenue from your end customers.

Regain Control

Separate your investments in hardware from the software fees needed to run it.

Prepare for Growth

Buy the hardware needed to meet long-term needs while keeping software costs low.

One Primary Storage Platform Unites All Your Hypervisors

- **Simplify and Streamline** Your CloudOps
- **Use the Right Tool** for Each Use Case
- **Ease the Load** on Your People
